Dear Adam Becker,

My daughter and I would like to extend our appreciation to your Superintendent, Patrick Palmer, and his crew. They were all courteous, polite, and helpful during the restoration of our home. The crew was always on time. They kept the house clean, safe and organized. We were impressed with how quickly, efficiently the crew worked to get all repairs done.

Patrick went out of his way to make sure that all our questions were answered, and that we were comfortable with the way repairs were done, and the way they looked. The end result was better than what we had imagined. We have not experienced any problems, and could not be happier with all the repairs Statewide, Patrick, and his crew preformed.

If at anytime Statewide needs us to give a reference please feel free to contact us.

Best regards,

Bruce V
