Statewide Disaster Restoration  
22310 Telegraph Rd  
Southfield, MI 48033

In January of 2008 three of our floors were flooded in our family home which more less destroyed 75% of our home. Upon consulting with insurance professionals, I chose STATEWIDE DISASTER RESTORATION to handle the clean up and repairs of our home. I am so glad that I took that advice!

I feel compelled to write this letter to commend the tremendous job performed by STATEWIDE DISASTER RESTORATION. I found Raymond Eddy, David Stafford, & Wayne Hubbard as well as the rest of the staff to be extremely empathetic to our situation and were fantastic to work with. They walked us through every step of the process and even when difficulties arose, the situations were resolved with class and professionalism. These men are a true credit to your company.

As you can imagine, dealing with numerous contractors and the hundreds of decisions needed to complete the project, not to mention being forced from our home for a period of time was very stressful. Your staff made this time about as tolerable as it could have been. Although I hope no-one would ever have to go through this, I would recommend STATEWIDE DISASTER RESTORATION to anyone in similar circumstances.

Sincerely,

A handwritten signature in cursive script that reads "Scott R. D".
